It's sustainability : Rapidly renewable, biodegradable, recyclable, and can be produced organically.

TENCEL™ is brand name of LENZING™ Cellulose and Modal fiber. It helps to maintain the environmental balance by being integrated into nature's cycle.

Bemberg is made from the smart-tech transformation of cotton linter biouility waste. Biodegradable and compostable fibers and then decomposed naturally.

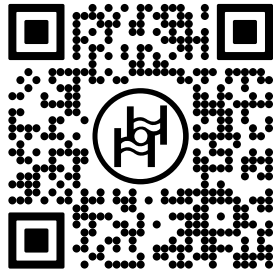

FSC identifies responsible viscose, complying with environmental, social and economic standards by forest stewardship council.

Oeko-Tex STANDARD 100 confirm the human-ecological safety of textile products and leather articles from all stages of production.

ELITE, which is the Stilon PBT yarns are manufactured with special care about natural environment.
